

## Retail Price List

Effective: 2/1/2023

In an effort to promote preventive care and reduce financial responsibility for self-pay patients and those with high-deductible plans, Graham has developed a retail price program for frequently ordered lab & imaging tests.

This program is great for patients with **high-deductible plans and those without insurance coverage**. The retail program offers patients the option to pay a low cost for labs if paid in full the day of their test while waiving the option of having the tests billed to their insurance and applied to their deductible.

Taking advantage of the program is simple. Patients who have an order for an eligible test just need to request retail pricing at registration and the GHS team will take care of the rest.
